CREONEX

Join CREONEX in revolutionizing concrete production with our premium batching plants. Designed for maximum efficiency and reliability, explore our CRX models to power your projects to new heights.

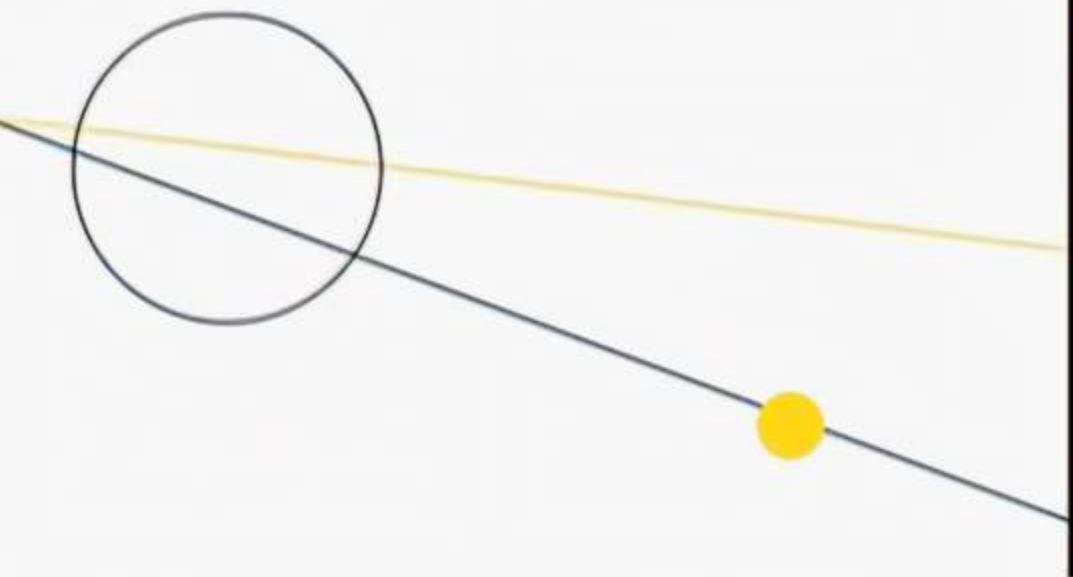

Premium Concrete Batching

About CREONEX

At CREONEX, we are pioneers in manufacturing premium Concrete Batching Plants, engineering precision and efficiency for concrete construction. Our CRX series—CRX-20, CRX-30, CRX-45, CRX-60—delivers 20 to 60 cubic meters per hour. Committed to quality, innovation, and sustainability, our engineers craft equipment that powers industry leaders.

Discover CREONEX batching excellence in every detail. Engineered for premium performance, join us in building superior concrete solutions, one batch at a time.

Our Premium Models

● CRX-20

20 m³/h compact plant, ideal for small to medium projects with efficient design and easy setup.

● CRX-30

30 m³/h versatile performer, mobile design for medium sites with robust reliability.

● CRX-45

45 m³/h high-capacity solution, advanced automation for demanding construction environments.

● CRX-60

60 m³/h flagship model, engineered for large-scale operations with maximum output.

● Durable Construction

Premium materials ensure longevity, low maintenance, and superior performance in harsh conditions.

● Automated Precision

State-of-the-art controls across all models for optimal mixing and minimal waste.
